Christians in Australia and worldwide celebrate Christmas as the day Jesus was born. They believe that Jesus is the son of God. A Roman almanac confirms that 25 December was used to celebrate Christmas in 336 CE, although it was nearly 600 years later that the churches created a liturgy - a service for public worship - for the occasion. Different denominations have various traditions and church services on Christmas Day.

25th Christmas Day (Christian) On Christmas Day, Christians celebrate the birth of Jesus. Different denominations have a range of traditions and types of Church service around Christmas Day. Catholics often attend midnight mass, which starts at midnight as Christmas Eve leads to Christmas Day. Other denominations attend special church services during the day on December 25. On Christmas Day, children hope to receive gifts in a stocking or under the Christmas tree from the mythical figure Santa Claus. In the weeks before Christmas, they write letters to him so that he knows what they want. In some stories, Santa Claus wears a thick red, fur-trimmed suit and travels in a sleigh pulled by reindeer.

26th Boxing Day Boxing Day is a holiday in many countries, such as Australia, in the Commonwealth of Nations. It was traditionally a day for employers in England to give bonuses of money, leftover food or old clothing to their employees, or for lords to give agricultural tools and seeds for the coming year to their tenants. These gifts were presented in a box. Some people believe that this is the reason that December 26 is known as Boxing Day.

31st New Year's Eve Many Australians annually celebrate New Year's Eve with parties, music and other forms of entertainment on December 31. New Year's Eve is the day before New Year's Day in the Gregorian calendar, which is used by many Australians. It is important to note that not all cultures in Australia follow the Gregorian calendar in observing New Year's Eve and New Year's Day. For example, the New Year in the Hindu, Chinese, Coptic, Jewish and Islamic calendars differ to that of the Gregorian calendar.
